INTERNAL SHUTTERS

BEST FINISH ON THE MARKET

Boardwalk offers the complete range of internal shutters, from Sentosa Shutters for bathrooms and wet areas, through to our sophisticated timber shutters for those looking for a more traditional look.

We present all our shutters evenly, and it will be your window sizes, design ideas and how you intend to use the shutters on a daily basis that will help determine the right product for you.

For example, some of the materials are capable of wider spans than others. There are some materials better suited to wet areas, whilst other products in our range can be custom painted to suit existing decor. Selecting the right shutters is best decided in your home with one of our experienced sales staff and we offer an obligation free measure and quote service.

The materials we offer have been in our range and the Australian market for many years and are well trusted and proven performers. We have completed thousands of installations in homes, businesses, hotels and resorts throughout Western Australia and beyond, and we are very proud of our track record and reputation. All our internal shutters are custom manufactured and imported from well established suppliers using reputable material sources.

Shutters are sold as a cosmetic product, to add control over privacy, light and thermal conditions within the home. They do not provide full block out of light, and varying light gaps will feature between the blades due to the tolerances in materials and manufacture. This is an industry standard.

For added peace of mind, before you buy we encourage you to visit our Balcatta showroom to see our full range on display.

Kimberley Shutters

Our flagship interior product

Beautifully crafted and sprayed after assembly, this is the product that ticks all the boxes on price and features. Made using Basswood throughout, the wide range of customisation available makes the Kimberley Range the most versatile in the market. Choose from a palette of 13 standard colours, or colour match to your décor. Utilising mortise and tenon joinery, Kimberley Shutters feature upgraded mouldings to provide a stunning product throughout.

-  **Elliptical blade 63mm, 89mm and 114mm**
-  **Suitable for wide panel spans**
-  **Choice of eight classic colours**
-  **Custom paint options**
-  **Increased customisation**
-  **Two way blade closure**
-  **Stunning range of five timber stains**
-  **Custom shapes available**

**Maximum Panel Spans up to 950mm
dependent on configuration and design**

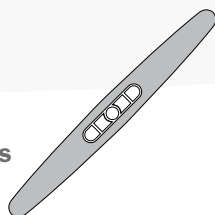

Sentosa Shutters

Our Sentosa fauxwood shutters are extruded using a synthetic non toxic material and can be used in wet areas or throughout the home.

To reduce the weight of the product and to provide added stability in the absence of a grain, aluminium louvre inserts are used in all panels. Vertical stability is also provided with aluminium reinforcing in each side of the panel.

- ✓ **Elliptical blade 63mm, 89mm and 114mm**
- ✓ **Suitable for wet areas**
- ✓ **Choice of eight classic colours**
- ✓ **Custom paint options**
- ✓ **Wide choice of configurations**

**Maximum Panel Spans up to 750mm
dependent on configuration and design**

ROLLER BLINDS

The Boardwalk range of quality roller blinds offers a stylish and affordable solution for almost any window in your home. The roller system used in our blinds incorporates the latest technology to ensure years of smooth trouble free operation. No more tugging, no more jamming.

If you have a large window span – no problem, our Easy-link system allows adjacent blinds to be linked together to provide even greater flexibility and ease of operation and our spring loaded booster system used when required makes easy work of even the largest blind.

Gone are the days of having to live with visible rollers as we offer a range of fascia covers and pelmets to suit your decor and blind application. We even have an option for enhanced room darkening, the ideal solution for home theatre and media rooms. When it comes to the detail we have that covered too, with stainless steel operating chains and of course child safety features all included as standard.

Roller blinds are now a true décor accessory and can add a touch of class to your home. Select from a great range of fabrics available in varying opacity, colours and textures.

MOTORISATION

Most of our roller blinds can also be motorised delivering effortless operation. Our friendly representative will be happy to discuss how motorisation will change the way you look at roller blinds – and it's likely to be a lot less expensive than you might imagine.

Battery systems using internal rechargeable lithium-ion batteries can be installed without the need to engage an electrician saving time and money. Our range of high quality motors, controllers and sensors work seamlessly with our precision hardware to ensure efficient and trouble-free operation of your blinds providing the ultimate in user comfort. Re-charge options include plug-in adaptors and solar panels. The easy to use remote can be used to operate one or multiple blinds at the same time.

In addition to our stylish hand-held remotes a variety of control solutions are available including wall switches and the latest radio communication technology that facilitates ultimate control all via an App your smartphone.

This technology allows you to control and monitor all your motorised blind functions including Limit Setting, Favourite Shade Positions and Speed Settings. The Levelling Control allows precise positions of multiple shades to ensure perfect alignment and configuration. The two-way radio control gives you immediate feedback showing shade positions and motor battery health relayed directly to your smartphone and clear user-friendly displays.

VENETIAN BLINDS

Delivering a look that can represent classical to contemporary, venetians are also both affordable and stylish. Venetians also facilitate good control of light, privacy and ventilation and are suitable for just about any window throughout your home.

Boardwalk offer a comprehensive range of slimline 25mm venetians as well as more traditional 50mm and 63mm venetians. All our venetians have been created in consultation with leading interior designers to ensure they reflect all current design trends. Our products range from aluminium and premium timber options to venetians designed specifically for wet areas.

Slimline Venetians

When it comes to creating a chic, uncluttered look for windows, slimline venetian blinds from Boardwalk are a clear winner. Our range of slimline aluminium 25mm venetians provide a modern and sleek design element that will transform any window. Not only do our slimline blinds look amazing from any angle they are great in minimising light penetration. Tilt the blades to obscure or reveal an outside view, or lift them up and away to enjoy a clear, unobstructed outlook.

Select from a range of contemporary designer colours that have been carefully selected to supplement today's interiors. In fact, there are 32 designer colours to choose from.

New York Venetians

This premium, polystyrene based slat system is designed for Australian conditions with excellent thermal properties. These venetians are ideal for all areas in your home and are also suitable for wet areas. They are available to suit windows up to 2700mm wide and come in a range of five on-trend colours in both 50mm and 63mm blade size.

Paris Venetians

Made from 100% natural plantation timber these venetians offer the best heat rating and look fantastic! These venetians are ideal for most windows in your home but are not recommended for wet areas. Due to their super lightweight they are also available to suit wider window spans of up to 3000mm. Select from a range of 6 designer colours in 50mm blade width.

Tuscany Venetians - *Our best value range*

Boardwalk's Tuscany Venetians provide an affordable solution for any room in your home including all your wet areas. Made from 100% PVC they offer a great heat rating as well as meeting all Australian standards. They are suitable for window spans of up to 2700mm wide. They are available in a great range of five designer colours in 50mm blades width to suit almost any décor.

ROMAN BLINDS

**There is so much to love about roman blinds...
Made to exacting standards, right here in
Western Australia, Boardwalk's Roman Blinds
will enhance the look of any window.**

Roman blinds offer a contemporary style that will add a touch of modern flair without a hefty price tag.

A time-honoured classic, a roman blind is the ultimate designer statement. The blind style is essentially a series of fabric panels with distinct yet subtle fold lines that enhance visual appeal when lowered and create a neat stack of folds when raised.

A roman blind combines the functionality of a many other window covering options with the decorative impact and flexibility of a soft furnishing. They are easy to operate and also offer excellent light control. You can select from designs with or without front battens. The new innovations in design means that if battens are selected they can be positioned without the need for unsightly staples or stitches. The end result is a great look, premium quality and an almost seamless finish.

Operation is also a breeze thanks to the chain-driven mechanism with even larger blinds requiring only minimal effort. Child safety is paramount at Boardwalk, and that's why all our Roman blinds come with safety devices as standard.

When it comes to colour and fabric selection matching your décor will be easy... in fact, you'll be spoilt for choice. You can also choose from a range of 8 batten colours to compliment your fabric selection.

VERTICAL BLINDS

PANEL BLINDS

Boardwalk's Vertical Blinds are a great way to dress up your windows without spending a fortune.

Verticals have been traditionally used on large windows and openings such as sliding doors and they are also great for corner windows. Verticals offer the flexibility to reduce and control sunlight by turning the slats in response to changing light conditions.

With the option of 89mm and 127mm slat widths you are able to choose the style that best suits your needs and décor requirements.

Boardwalk also offer the option of wand or corded control. Wand control is an ideal 'child safe' choice that eliminates cords and chains.

A great range of designer fabrics and colours have been carefully selected to ensure that you'll find the perfect match to your existing colour scheme and décor.

Panel blinds are essentially an extra wide vertical blind that provide a unique modern look that is ideal for a number of applications within your home.

Boardwalk's Panel Blinds are the perfect solution for large spans and openings such as sliding doors. They are lightweight, smooth to operate and open and close effortlessly with a metal wand. They are an affordable option and with no cords panel blinds are also a great 'child safe' window furnishing.

Panel blinds offer very versatile layout combinations and tracks can be configured to suit your specific requirements with one or two way stacking options on up to 6 tracks.

Boardwalk also offers a great range of fabric and colour options so you'll be sure to find the blind that will match your décor perfectly. To compliment your fabric selection choose from a range of 4 track colours.

EXTERNAL SHUTTERS

Boardwalk are the leaders in all things Aluminium.

When it comes to enhancing your outdoor area to create another room, to provide privacy or to simply add style our outdoor shutters can make it a reality.

Our Australian made premium Beachside Range with options of fixed, hinged, bi-fold and sliding shutters offer the flexibility to create a more usable alfresco for year round enjoyment. Our external shutter products are made using commercial grade aluminium, include external grade hardware and components and finished in quality powder coats.

Outdoor shutters applications will often require additional support posts, beams, flashings and welded materials to provide the best solution for your home.

With a full local manufacturing facility for our range of aluminium gates and screens, Boardwalk excels in being able to offer the ultimate in customisation and high quality finishes for all your outdoor shutter requirements.

Beachside Shutters

Ideal for creating a sheltered environment that increases your living area, providing an added level of security, warmth in winter and protection from the harsh Australian sun, our Beachside Range is our premium exterior product and represents an unsurpassed level of quality.

This product offers a superior range of tracking, hardware and locking options including lockable blades. Shutter panels can also incorporate glass panels providing even greater design flexibility.

Shutter blades can be fabricated in the normal horizontal format or vertically to meet compliance for swimming pool surrounds or as a design feature.

These shutters can be powder coated in an extensive range of colours from the Dulux or Interpon Powder Coat Range, including all popular Colorbond colours.

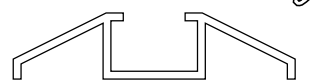

These exceptional shutters are ideal for commercial as well as residential applications. They are also cyclone rated for added peace of mind.

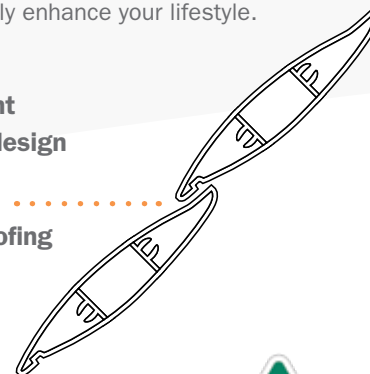

Our Beachside Range of Shutters are simply the most stunning on the market. An investment in these is an investment in your home, and by spending more time outdoors they will certainly enhance your lifestyle.

Low Profile Bottom Track

ALFRESCO BLINDS

Tired of the weather conditions limiting the use of your alfresco or patio? Imagine being able to enjoy your outdoor space all year round.

As well as being market leaders in outdoor shutters Boardwalk are an authorised retailer of Ziptrak® one of the most trusted names in alfresco blinds.

These blinds are guided smoothly through vertical tracks and can be left in any height position for greater flexibility. Ziptrak® incorporates a patented spring-balanced system that eliminates the use of unsightly zips, cords, ropes or wires and makes operation almost effortless.

The unique central lock system supplied as standard on all Boardwalk Ziptrak® awnings allows the blinds to be held securely in the fully down position against windy conditions. The design also grips tightly in the vertical tracks to stop rattling in the wind.

Boardwalk Ziptraks can cover an area up to 6 metres wide and 3.5 metres high in a single span using sunscreen fabrics which come in a range of colours and styles.

There is also the option of removable posts. These posts can create a partition when the blinds are closed and then be removed when the blinds are up to create a doorway or wider opening.

To provide the finishing touch why not choose a co-ordinated pelmet and flashings.

Boardwalk Ziptrak® frames and pelmets are available in five co-ordinated colours in coastal powder coat treatment which is highly resistant to Australian weather conditions. Custom powder coat colours are also available.

If you'd really like to impress your friends why not consider motorisation.

From the single easy to operate remote, take control of up to four individual blinds or link together with the 'CONTROL ALL' function allowing all blinds to be operated together if required.

SCREENS & SLAT FENCING

Frameless Slat Screening

Frameless Screens are our most widely used product, ideal for creating added security and privacy to your home.

All slats are made using Commercial Grade Aluminium, and are assembled in our factory meaning less time, noise and mess created onsite than some other DIY type systems available.

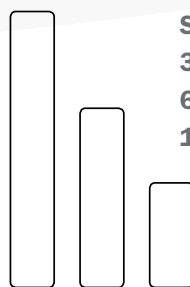

The Aluminium slats come in a wide range of Powdercoat colours, or select from long lasting timber grain colours. In terms of installation, these are typically mounted between pillars, or Boardwalk can install matching posts to allow for wider spans.

Powder coat finish

Timber grain finish

Slat Sizes:

38mm x 16mm

65mm x 16mm

100mm x 16mm

Aero Screens & Gates – Fixed Blades

Using Aluminium Elliptical or Aerofoil Blades, Boardwalk Fixed Blade Aero Screens are a very stylish way of providing privacy, whilst maintaining the 'shutter look'. Our solid powdercoat colours are welded into the frames and are also available as a gate.

Aero Screens can be used for a wide range of applications including infill panels, pedestrian and driveway gates.

Aero Screen Sizes: 70mm and 89mm

Powder coat 70mm and 89mm

Interpon

Our external products can be made Swimming Pool and Council Compliant when required, please make clear all these requirements onsite with our Sales Staff.

Boxed Screens

Fully Welded Frames provide an enhanced appearance over traditional frameless screen systems, whilst providing added support and structure for larger areas. When used in conjunction with a welded gate, a more seamless transition across the products also allows for a neater finish.

All frames are TIG welded, providing a robust and quality join that is stronger than the original material. The importance of this is apparent when used together with larger swinging gates, where other methods of frame joins or poor quality welds will quickly show their age. Frame sizes will depend on the span of the product and structural requirements.

Powder coat finish

Timber grain finish

Slat Sizes:

38mm x 16mm

65mm x 16mm

100mm x 16mm

Placing an order for selected screens & gates is confirmation you are aware of all legislative and by-law requirements.

PEDESTRIAN GATES

General Access and Pedestrian Gates

Utilising Boxed Screens and Aero Screen products, our pedestrian gates can allow side access to a property or to secure a front yard.

Quality is paramount, and Boardwalk uses trusted hardware and fixings to ensure longevity across all our products. All our gate frames are welded, which given the repeated open and close nature of a gate will provide a more stable gate than screw together gate systems.

Options of Auto Release, Service Key (for access to meter boxes etc), push button and 'like' keys options are all available.

Most of our gates can be made Swimming Pool and Council Compliant when required, please make clear all these requirements onsite with our Sales Staff. Placing an order for selected screens is confirmation you are aware of all legislative and by-law requirements.

It is the responsibility of the customer to gain any necessary council approvals relating to the installation of any products supplied by Boardwalk including but not limited to swimming pool, building and council compliance.

Gate Hardware – Standard

Lokklatch Deluxe – standard inclusion

- ✓ Double sided and lockable with key
- ✓ Polymer construction with stainless steel tongue
- ✓ Limited lifetime warranty

Truclose Hinge – standard inclusion

- ✓ Self closing available for swimming pool compliance
- ✓ Concealed screw covers
- ✓ Polymer and stainless steel construction
- ✓ Heavy duty option available for larger gates
- ✓ Limited lifetime warranty

Pedestrian Access Gate Upgrades and Options

STAINLESS STEEL HINGE

Stainless steel hinges are available providing enhanced appearance.

SELF CLOSE HINGE

Stainless steel hinges are also available with a self close option.

KEYPADS – NEW PRO FINISH MARINE GRADE

Single or double sided black marine grade stainless steel keypads are available for use in conjunction with the stainless steel hinge upgrade

LOCKWOOD LATCH

Durable finish with a 25 year warranty. Used with stainless steel hinges and can be configured for manual operation or with electric strike mechanism.

ELECTRIC STRIKE

Conveniently releases your gate automatically from inside your home. Used with stainless steel hinges and Lockwood latch.

Pedestrian Gate Hardware Options

	Lokklatch Deluxe	Lockwood	Keypad	Side Pull	Top Pull
70mm Aero Gate	✓	✓	✓	✓	✓
90mm Aero Gate	✓	X	X	✓	✓
Slat Box Gate	✓	✓	✓	✓	✓

Pool Compliant Products

TOP PULL
Ideal for increasing lock height around swimming pools to meet compliance

CAP
As a safety measure the cap prevents the hinge being used as a child's foothold

SIDE PULL
Ideal for low gates as well as meeting swimming pool compliance

DRIVEWAY GATES

Larger Access and Driveway Gates

We specialise in gates for vehicles, boat & trailer, driveway and car park access in either manual or motorised systems.

Depending on your requirements, our gates may be installed in either sliding or hinged configurations. All our gates are custom made to suit each application and feature welded frames.

With upgraded posts, frames and hardware used as required our gate systems will suit extra wide situations as well as areas where increased usage may be a consideration.

- ✓ Sliding
- ✓ Hinged

Gate Systems and Accessories

HEAVY DUTY HINGES

We use heavy duty Galvanised hinges when required. They are sandblasted, treated and powder coated to match posts/frames.

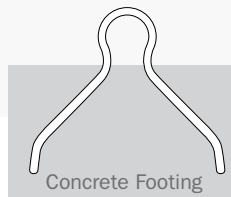

TRUCLOSE HINGE

On lighter gates we may still favour the range of TruClose hinges. Available in light or heavy duty.

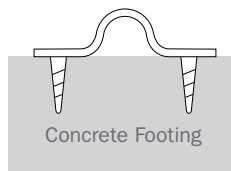

JOCKEY WHEEL

May be installed on wider manual gates to provide additional support and ease of operation. (Not suitable for motorised)

INSET TRACKING

This is the best option on paved or unlevel driveways.

SURFACE TRACK

This is the ideal installation option for level driveways and existing concrete surfaces.

Hinge and gate accessory designs may vary subject to application.

Motorisation

Boardwalk proudly uses Mhouse motorised systems for all sliding and hinged gates. Manual gates can be motorised at a later date subject to a few changes at fabrication, so please advise us in writing (in advance) if you plan on adding a motor at a later date.

Mhouse motors are Italian made, are low maintenance and offer hassle free operation. Our standard motors operate using 24 Volt system. (A 240 Volt power source is required to be made available by the client close to the motor location prior to installation.)

The factors to consider in the selection of the right motorised system include the operating cycle of the gates, and the relationship between the airflow of the gate versus the wind loading on the motor. We have motors to cover all scenarios, and also offer a range of accessories including locks, safety sensors and keypad entry.

MHOUSE MOTORISED INCLUSIONS

- ✓ Suitable for Box Slat Gates
- ✓ Suitable for Aero Gates
- ✓ Sliding and Hinged Operation
- ✓ Upgraded Frames and Support Posts
- ✓ 2 Remotes Supplied as Standard
- ✓ 240V option available for limited airflow hinged gates and areas where high wind is a consideration

MHOUSE HINGED MOTORS

- ✓ High duty cycle
- ✓ Key over-ride
- ✓ Die cast aluminium housing
- ✓ Options to suit gates upto 4.5m

MHOUSE SLIDING MOTORS

- ✓ High duty cycle
- ✓ Key over-ride
- ✓ Models available to suit gates upto 7 metres wide

All Mhouse motorised products are covered by a 2 year warranty on all parts against defect. However, installation, electrical work, transport cost are not covered under the warranty conditions. An extended warranty is also available in conjunction with a yearly service plan. Please note that motor selection should be based your particular circumstances and will be subject to a site assessment. This will take into account the type of gate being installed and local wind conditions including tunnelling that may be apparent in the position of the gate.

**LOWEST
PRICE
GUARANTEED**

Don't be pushed to buy elsewhere with the promise of saving a few dollars. Boardwalk offer the best range of premium interior and exterior shutters, as well as custom made aluminium screens and gates. Boardwalk will beat any price on a comparable product for the same application on presentation of a genuine quotation from a local competitor dated within the last 30 days.

Our 'Lowest Price Guarantee' allows you to buy with confidence and gives you the opportunity to purchase the best quality products available, at the best prices too.

See our website for full details.

Industry leading warranties

So confident are we in our products that we offer some of the best product guarantees available.

**BOARDWALK
GUARANTEE**

Manufacture/Hardware Guarantee

We warrant the workmanship and manufacture of our internal & external shutters, plus our range of aluminium screens and gates for up to 15 years. Our hardware is guaranteed for up to 25 years.

Finish guarantee

We also provide warranties on the finishes on most of our products from 5 to 10 years depending on the product and type of finish selected.

Please refer to our website for full details of our product warranties.

Why Choose Boardwalk

- ✓ **We do not require a 50% deposit like many companies, or full payment before installation.**
Under normal circumstances we require a deposit of only 40% with the balance due upon delivery/installation
- ✓ We have one of Australia's most comprehensive displays and encourage you to visit our showroom to see the quality of our product first hand before you buy
- ✓ We offer professional advice without product bias to ensure you select the product that best suits your needs and budget
- ✓ We offer extensive after sales support
